If the interview is unsuccessful, for substitution they will have to try with number 6, 7, 8 and so on.

Taking as sample framework the population census cartography, census radios are stratified according to the geographical location and social and economic level.

**V101.-** Now I'd like you to tell me your views on various issues. How would you place your views on this scale? 1 means you agree completely with the statement on the left; 10 means you agree completely with the statement on the right; and if your views fall somewhere in between, you can choose any number in between.:

"People can only get rich at the expense of others" vs.

"Wealth can grow so there's enough for everyone"

Argentina 2013(N=1030)

Ahora me gustaría que Ud. me diera sus opiniones sobre algunos temas. ¿Donde situaría Ud. sus opiniones en esta escala? "1" significa que Ud. está totalmente de acuerdo con la afirmación de la izquierda; 10 significa que está completamente de acuerdo con la afirmación de la derecha; y si sus opiniones están en el medio, puede elegir cualquiera de los números intermedios.

Las personas sólo pueden hacerse ricas a costa de otras

**Y003.-** Autonomy Index is a computed variable based on the Children qualities battery.

It uses only four variables:

V19= Important Child Qualities: Religious Faith

V21= Important Child Qualities: Obedience

V12= Important Child Qualities: Independence

V18= Important Child Qualities: Determination, Perseverance

Only variables with answers to all v19,v21,v12,18 have an index. The SPSS like formula is:

Compute Y003=-5.

if v19>=0 and v21>=0 and v12>=0 and v18>=0 then Y003=(v19 + v21)-(v12 +v18).
